Performance & Production

Increasingly shows are including Performance Classes in their schedules to give a more objective view of a sheep's value.

These Performance Classes use objective measurement for both wool and meat, looking at Frame & Conformation, Body Weight, Fat Depth, Eye Muscle Depth, Staple Strength, Coefficient of Variation and Fleece Value.

Merryville Stud has proven the profitability of both its rams and ewes in the Objective Measurement Classes at the Sydney Royal Easter Show in recent years. In 2017 a Fine/Medium Wool Poll Ram was the winner of the OM 6 tooth & Over Ram Class. 'Merryville Cas' cut 15.8kg of 18.1 micron fleece at a yield of 83.5% for a total fleece value of \$277. The 121kg ram had an eye depth muscle of 32mm.

In the Sydney 2016 OM 2 to 4 tooth class, Merryville had the second highest fleece value for 'Supreme 14' (the Supreme Merino Exhibit) with a 15.4kg, 18.5 micron fleece with a yield of 72%. A Merryville 2 tooth poll ram had the highest eye muscle depth at 40.0mm and a fat depth of 3mm. This ram also had the 2nd highest poll fleece value of the class.

In 2015 'Merryville EM Cas' placed 2nd in the OM Ram 6 tooth and over class with a 125.5kg ram with 18.8 micron wool, a fleece yield of 74.9% and fleece value of \$138.06. A younger poll ram in the 2 to 4 tooth class placed 3rd in his class. With a 19.5 micron fleece this was the highest yielding and most valuable fleece of the class at 82.1% and \$125.39 respectively.

In the 2 to 4 tooth Ewe class Merryville secured 2nd place with a 17.7 micron, 12.5kg fleece valued at \$108.23.

Merryville Stud recorded a record wool weight of 18.36kg in the performance class of the 2015 Dubbo Show and Sale. The ram won the class with a micron of 17.8, SD of 2.9, CV of 16.8% and CF of 99.8%. The fleece was valued at \$155.93 and received 160 points from a possible 160 for the fleece value. The eye muscle depth and fat depth also obtained maximum points.

The OM Class for Rams 6 tooth and over at Sydney in 2013 was won by a Fine/Medium wool ram from the Merryville Uniform family during his first showing. This ram weighed 113.5kg after shearing a 12.4kg fleece of 18.1 micron wool yielding 75.2% and valued at \$116.66. The ram's total value was \$409.00 and its eye muscle measured 42mm with a fat depth of 4.2mm. This eye muscle measurement was the highest in the class. Merryville's entry in the Ram 2 to 4 tooth class also had the highest eye muscle measurement of 41mm.

Merryville won the OM class at Dubbo in 2013 with a ram cutting 14.6kg wool with a micron of 17.4 and 139kg body weight. The ram scored a perfect score for his fleece which was valued at \$126.44. This follows on from Merryville's Castellon ram which cut 14.8kg at 19.2 micron in 2012.

In 2012 in the OM classes at Sydney, Merryville placed 1st and 3rd with two rams. The prize winning ram was a 4 tooth while Merryville's 6 tooth ram came third. Both rams scored top in their class for eye muscle depth.
